Prepared produce weights are edible weights. Adjust portions and textures for the individual child.

Illustrative serving. Follow the measured ingredients.

PREPARATION

1. Prepare and cook vegetables and starch until fork-soft. For mash, peel and mash with a little drinking water.
2. Whisk eggs and cook with the listed flavouring until fully set. Break into soft, manageable pieces.
3. Serve warm over the starch or plate components separately. Adjust texture and portion size to each child's feeding plan.

TOPPING IDEAS

Use a little cooking liquid to keep the dish moist, as needed.

CHEF'S PREP NOTE

Measure the batch first. Set aside younger children's portions before final texture adjustment.

NUTRITION BENEFITS

The main protein ingredient adds variety to the menu.

SERVING TEXTURES

Under twos eating solids: mash or finely chop to the individual feeding stage and moisten as needed. Ages two to five: serve small, soft pieces. Check all chicken for bones and gristle. Seat and supervise children while eating.

HOW TO PLATE IT

Plate the soft starch, protein and vegetables separately where practical. Adjust portions to individual feeding plans.

ALLERGEN CHECK

Egg; verify all product labels, substitutions and each child's allergy plan. Prevent cross-contact and keep raw and ready-to-eat food separate.

STORAGE TIPS

Keep chilled food at 5°C or colder. Record food served and substitutions.

EQUIPMENT NEEDED
