Green tea • 1 adult serving

WATER	BREW	SERVE
75–85°C	1–2 min	Warm

INGREDIENTS

Waikato-grown green tea leaves · 2 g

Fresh drinking water · 240 mL

Contains caffeine

Illustrative cup image

PREPARATION

1. Warm your teapot with hot water and empty it.
2. Add leaves and pour over 75–85°C water. Start with 1–2 min, or follow the supplier directions.
3. Strain into a cup. Adjust the next brew to taste.

NUTRITION NOTE

Plain brewed tea contributes to fluid intake and provides little energy when unsweetened.

CAFFEINE & ALLERGENS

Contains caffeine. Check ingredient labels and substitutions.

SERVING NOTE

For adults. Check supplier directions and serving temperature. For iced drinks, chill promptly and keep cold.
